

# 10 Tips for Pleasure-craft Insurance

Our On-Line Yacht quoting tool enables you to obtain a quote and issue a policy in minutes.

Coverage for any size of vessel ranging from a small runabout or cruiser to a mega-yacht.

1. Inland waterways and Marinas – Many marinas and inland waterways require that you're insured before you can launch.
2. The Potential Risks – Even if your pleasure-craft is of little value and you are willing to assume the risk of its total loss it can still cause serious and expensive damage to other people, other boats or property.
3. Protect yourself against claims – Third party cover protects you against potential financially crippling personal injury or third-party damage claim.
4. Protect yourself against major costs – Our comprehensive policy (including new for old coverage) can protect you against the major costs to recover even a small boat if it sinks on mooring or elsewhere.
5. Towing a boat – Your auto insurance doesn't cover damage to your boat while it's being trailered, however this is covered under our Yacht policy.
6. Get the right policy – Insurance can be tailored if needed to ensure you have the precise protection you need without paying for cover you don't want.
7. Taking your boat for a long cruise – Check the requirements of your destination and be sure your policy covers you through specific navigational waterways, which we can add to your policy.
8. Our policy has full marine liability coverage which conforms to liability under the Canadian Marine Liability Act.
9. Secure boat finance – If you require finance to help fund the purchase of your pleasure-craft, the major financial institution will want to be satisfied that you have the appropriate insurance in place.
10. Buying a pleasure-craft – If you're thinking of buying a boat you can arrange insurance well in advance to avoid any last-minute hitches.
