

Aircraft and UAV Insurance

The aviation industry is a very complex and sophisticated business. Companies involved in it today are faced with growing exposures and concerns.

Traditional aviation insurance coverages are no longer adequate to protect the aircraft operator. Emerging threats both domestically and internationally need to be identified and assessed, and a broader risk management and insurance solution implemented.

With this, our clients are able to explore new opportunities and grow their business with confidence.

Policy Benefits

Eagle has developed a unique product. Our brokers and clients have many benefits including:

- 'One-stop shop' for insurance for 'Things That Move'
- Premium discounts for Canadian Council for Aviation & Aerospace members
- Customization for a particular risk to a client
- Expertise in all transport, trade and related exposures

Specialized Coverages

- Aircraft Hull and Liability
- Non-Owned Aircraft Liability
- Product and Operational Liability
- Property coverage for buildings, contents, hangars, and equipment
- Trade Risks such as Supply Chain Disruption, War & Terrorism, and Political Risks
- Emerging Risks including Cyber Liability and Environmental Liability
- Other exposures like Cargo, Professional Liability, and Mobile Equipment

Key Segments

Commercial – charters, scheduled, floats, exploration, cargo, patrol, training

Private – fixed and rotor, business use, home built

UAVs (Drones) – commercial use for patrol, survey, video, etc

Energy/Mining/Resources– Non-owned aircraft
